

PRESS RELEASE

ALUPROF SA strengthens its presence in France with the opening of a new subsidiary and participation in BATIMAT 2026

ALUPROF SA is part of the **GRUPA KĘTY SA** Capital Group, a publicly listed industrial group on the Warsaw Stock Exchange. With over 70 years of experience, the company is one of Europe's leading manufacturers of aluminium systems for windows, doors, façades and sun-shading solutions.

As part of its long-term international growth strategy, ALUPROF SA is strengthening its presence in France through **ALUPROF FRANCE SAS**, offering aluminium systems, components and solutions for window and door manufacturers, façade contractors and other construction professionals, complemented by local commercial and technical support.

Established on 2 April 2026 and headquartered in Immeuble CIMEA 2 - 19 Avenue Germaine TILLION 35136 Saint-Jacques-de-la-Lande, Bretagne, France, ALUPROF FRANCE SAS aims to increase the availability of high-quality aluminium systems and provide comprehensive solutions tailored to the needs of the French market.

The French team includes dedicated Area Sales Managers responsible for the Extrusion Products, Architectural Systems and Sun Shading Systems segments, ensuring professional support throughout the purchasing process and every stage of project development.

"France is a strategic market for ALUPROF SA and an important part of our international development strategy. The opening of a local subsidiary allows us to be closer to our customers, better understand their needs and provide even stronger support for ambitious architectural projects. We see significant opportunities for growth in France and are committed to building long-term partnerships with local stakeholders," says Gilles Carré-Roué, Managing Director of ALUPROF FRANCE SAS.

Committed to sustainable construction, ALUPROF SA develops aluminium solutions that combine architectural freedom with high energy performance. By implementing energy-efficient technologies and advanced materials, the company helps reduce energy consumption and CO₂ emissions while supporting the transition towards more sustainable buildings.

BATIMAT 2026 presence

As a further step in strengthening its position on the French market, ALUPROF SA will participate in BATIMAT 2026 in Paris, one of the world's leading trade fairs dedicated to construction, architecture and building innovation. The event will provide an excellent opportunity to present the company's latest solutions, meet customers and partners and showcase the capabilities of ALUPROF FRANCE SAS to the French aluminium joinery and construction sectors.

Visitors are welcome to Hall 4, Stand 112 & 120, where ALUPROF SA will present a range of innovations designed to support sustainable construction and contemporary architecture, including:

- MB-79N RENO/MONO windows and MB-43 SLIDE RENO/MONO sliding door systems
- RENO – solutions developed specifically for renovation and refurbishment projects, enabling modernisation while preserving the architectural character of existing buildings.

MONO – solutions designed for contemporary architecture, combining expansive glazing, light-filled interiors and clean architectural lines.

- Fire-rated systems – The GLASSPROF product range includes EI30, EI60 and EI90 fire-rated glass and other types of insulating glass units.
- Sun-shading solutions – including external roller shutters, screens, façade blinds, pergolas, awnings and aluminium insect screens.

The exhibition will focus on solutions that combine energy efficiency, user comfort, modern design and environmental responsibility.

"BATIMAT is one of the most important meeting points for the construction industry in France and across Europe. For us, it is a unique opportunity to engage directly with window and door manufacturers, façade specialists, architects and business partners, while demonstrating our long-term commitment to the French market," adds Gilles Carré-Roué, Managing Director of ALUPROF FRANCE SAS.

The opening of the French subsidiary and participation in BATIMAT 2026 represent important milestones in ALUPROF SA's strategy to strengthen its position in France and expand cooperation with local business partners. By combining innovative products, technical expertise and local support, ALUPROF FRANCE SAS aims to become an even stronger partner for the French construction and architectural community.

About ALUPROF SA

ALUPROF SA is part of the GRUPA KĘTY SA Capital Group – a company listed on the Warsaw Stock Exchange and the most technologically advanced and fastest-growing manufacturing company in the aluminium industry in Central and Eastern Europe. The Group operates in 10 production facilities in Poland and 10 commercial companies across Europe and the United States. It is present in more than 50 countries and continues to expand into new global markets. With over 70 years of experience, ALUPROF SA works with more than 1,900 regular clients. Within ALUPROF SA, two distinct business segments operate: the newly established Sun Shading Solutions Segment – Aluprof Sun Shading Solutions, focusing on roller shutter, garage door and insect screen systems, façade blinds, screens and pergolas and the Architectural Systems Segment – Aluprof Architectural Systems, specialising in window and door systems, façade systems and fire-resistant solutions.

In France, ALUPROF SA operates through its subsidiary, ALUPROF FRANCE SAS, providing local commercial and technical support to manufacturers of aluminium windows and doors, façade contractors, distributors and other companies operating in the aluminium joinery and construction sectors.
