

# Case Studies

## The UK & Ireland

Aluprof is one of the leading European distributors of aluminium systems for the construction industry. Our range includes window, door and façade systems plus systems for roller shutters and garage doors. An extensive logistical base, state-of-the-art machines, extrusion of profiles within the group of companies and our own finishing plants together allow the company a full independence and flexibility in the market, which has for many years resulted in growth of the portfolio of customers and geographic coverage.
